

A field guide to Claude Cowork plugins

11 Free Plugins.

Anthropic's own library of free Cowork plugins for HR, finance, legal, sales, marketing, design, and ops — open source, two clicks to install, and most people have no idea they exist.

The Unlock

Most people use Claude as a chatbot — ask, answer, close the tab. What they're missing is Cowork, which turns Claude into a coworker that runs real workflows: contract review, sales prep, financial models, onboarding docs.

The unlock is **plugins** — 11 of them, built by Anthropic, free, open source, installed in two clicks.

WHAT A PLUGIN IS

A plugin is a pack of instructions that teaches Claude one job. Install the Legal plugin and Claude knows how to triage NDAs. Install Sales and it preps your deals. They're just text files — no code, no setup.

Where to Find Them

GitHub repo github.com/anthropics/knowledge-work-plugins

All 11 plugins, open source — read the code before you install anything.

Official plugin library claude.com/plugins

Browse and install straight into your Cowork sidebar.

The 11 Categories

Productivity

Task management, workplace memory, a visual dashboard. Start here.

Data Analysis

SQL, exploration, charts. Drop a CSV, ask in plain English.

Operations

Vendor management, process docs, capacity planning.

Legal

Contract review, NDA triage, compliance workflows.

Sales

Prospect research, deal prep, sales process.

Finance

Financial modeling, competitor analysis, key metrics.

HR

Job descriptions, onboarding, offer letters.

Design

UX copy, accessibility audits, design critiques.

Engineering

Code review, documentation, technical specs.

Investment Banking

Transaction docs, comps, pitch materials.

Equity Research

Earnings transcripts, models, research notes.

Plugins can also plug into tools you already use — Google Drive, Gmail, Calendar, DocuSign, Apollo, Outreach, and more — so Claude reads, drafts, and acts inside them directly.

How to Get Started

1 Open the Claude desktop app

Free for Mac and Windows — sign in with your normal account.

2 Switch to the Cowork tab

Second tab at the top, right next to chat.

3 Click Customize → browse and install

Pick the plugin that matches your work — it shows up in your sidebar instantly.

4 Or build your own

Plugin Create, built into Cowork, turns a plain-English description of a workflow into a working plugin — no coding.

ONE NOTE

Plugins need a Pro plan (\$20/month) or higher to install. The plugins themselves are completely free and open source — read the code on GitHub before you ever install one.

Do This Today

01 Open the Claude desktop app and switch to Cowork.

02 Install the Productivity plugin first — it's the fastest upgrade you'll feel.

03 Pick one more plugin that matches your actual job and install that too.
