

# The Cowork Skills Starter Pack

15 ready-to-install Claude Cowork skills covering the tasks that eat the most time in a small business or agency, plus how to set them up.

## What's in the pack

One plugin file, 15 skills, installed in under a minute:

01 Slide Deck Builder

02 Customize

03 Difficult Conversation Prep

04 Receipt Scanner

05 Explainer Graphic

06 Email Drafter

07 Visual Page Builder

08 Invoice Generator

09 Contract Reviewer

10 Workflow Visualizer

11 Morning Briefing

12 Budget Dashboard

13 Quick Research

14 Animated Website

15 Learning Path Generator

## How to install

- 1 Open Claude Desktop
- 2 Go to Cowork mode
- 3 Click the plugin icon
- 4 Upload the `neuraflow-cowork-skills.zip` file from this pack
- 5 All 15 skills are ready to use immediately

# Pair skills with scheduled tasks

Skills get more useful when paired with Cowork's scheduled tasks — a task that runs automatically on a schedule you set, so Claude does the work in the background without you being there.

## Morning Briefing + daily schedule

Run it every morning at 7am and wake up to a briefing on what's happening in your space, already sitting in your folder.

## Receipt Scanner + weekly schedule

Drop receipts into a folder all week, then have Claude build your expense report every Friday.

## Quick Research + on demand

Fire off a research task whenever a competitor moves or news breaks.

## Budget Dashboard + monthly schedule

Auto-generate an updated budget report on the 1st of every month.

To set one up, just tell Claude: *"Schedule the morning briefing to run every day at 7am"* and it handles the rest. Any scheduled task can also be triggered manually whenever you want.
